University Hospitals

*You deliver white-glove
primary care.*

*We ensure that same uncompromised
experience continues whenever
your patients require
hospital-based expertise.*

Extending Your Standard of Care Beyond the Walls of Your Practice

*Confidential Provider Communication — Designed Exclusively for Concierge
& Independent Direct Care Physicians.*

Designed for Concierge Excellence

As a concierge physician, your business model relies on delivering uncompromised quality, immediate access, and personalized attention.

But when your patients step outside your office for advanced imaging, specialized therapy, or acute hospital care, traditional healthcare friction can disrupt that experience.

The Western Reserve Hospital Concierge Provider Partner Program bridges that gap. We provide your practice with a single executive point of contact, dedicated administrative navigation, and direct physician-to-physician inpatient coordination.

- **Dedicated Practice Navigation:** A single, named Hospital Liaison serves as your direct connection to Western Reserve Hospital—managing every scheduling priority, order, and specialist connection.
- **Prior Authorization Concierge:** Our internal team handles insurance verification and authorization end-to-end for imaging and therapy, removing administrative burdens from your practice staff.
- **White-Glove Patient Amenities:** Preferred access features complimentary valet parking, direct room escorts, private room preferences, and bedside prescription delivery.

Service Level Commitments

We hold our clinical pathways to explicit performance standards designed around the speed and clarity your practice demands:

- **Stat Diagnostic Imaging (MRI / CT):** Same-day access for orders placed before 12:00 PM, with preliminary reads called directly to your office within 2 hours.
- **Routine Outpatient Imaging:** Priority scheduling within 24 to 48 hours following authorization, with final diagnostic reports synced directly to your EMR.
- **Therapy Services & Sports Medicine:** Patient outreach within 1 business day and initial comprehensive evaluation guaranteed within 3 business days.
- **Expedited Direct Admissions:** Skip triage and emergency room waiting delays. Complete a direct physician-to-physician warm handoff to place your patient directly into an assigned inpatient room.

Service Area	Traditional Pathway	Western Reserve Hospital Concierge Provider Partner Pathway
Radiology	Days to weeks wait time	Same-day turnaround & 2-hour preliminary read
Specialist Consults	3–6 week scheduling delays	Expedited access within reserved partner slots
Hospital Admissions	General ER intake process	Expedited direct doctor-to-doctor handoff protocol
Practice Support	Standard call queue	Single dedicated Executive Liaison
